area codes speed your long distance calls

The United States and Canada have been divided into more than 120 areas, each with a three-figure "area code." (Your area code is 515.) The area code for the telephone you are calling should be given to the operator if it is different from the area code of the telephone you are calling from.

long distance calls

your area code is 515

placing a long distance call with the operator

When placing a long distance call with the opeartor, please be sure to give her the area code of the place you are calling as well as the telephone number. Say, for example, "I want area code 515 235-0000." Give the Operator your **complete** number, when she asks for it.

Ames and Colo customers can dial their own station-to-station long distance calls to telephone numbers having seven numerals or two letters and five numerals. Follow procedures below.

. . . to call within area 515

dial "1", then the telephone number. (Do not dial the area code.)
For example, to dial 322-0000 in Des Moines:
dial 1 then 322-0000
Give the Operator your **complete** number if she asks for it.

. . . to call outside area 515

dial "1", then the area code, followed by the telephone number.
For example, to call 235-0000 in Sioux City:
dial 1 then 712 and 235-0000
Give the Operator your **complete** number if she asks for it.

---

how to get an area code

Area codes for many cities are listed on pages 5 to 15. If the city you want is not listed, dial "OPERATOR" and she will give you the area code.

to obtain an out-of-town telephone number

If outside area 515, dial "1", then the area code for the place you want followed by 555-1212.

If within area 515, dial "1" then the universal information number, 555-1212.

If you cannot dial distance calls, tell the operator the city or town and the name or firm you want to reach. She will get the number for you.

There is no charge for any Information call.

if you reach a wrong number

Dial "OPERATOR" right away and tell her what happened. On an operator-handled call, flash the operator. She will make sure you are not charged for the call.

if you should get a poor connection or be cut off

Depending on how the call was placed, dial or flash the operator immediately and tell her. She'll see that you get a good connection and that you are charged only for the time you've been able to talk and hear satisfactorily.

general information

when you hear a "beep" tone

A short "beep" tone heard on your telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation. The signal is provided by the telephone company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the company's tariffs and is not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When it is disconnected, you will no longer hear the "beep" tone.

credit card

A convenient way of making long distance calls when away from home. To use a credit card, place your call with the operator, giving her your credit card number. The call is charged to your home or office phone. To get a credit card, call your Business Office.

telephone directories

The directory is an important aid in providing good and prompt telephone service. If your directory is no longer serviceable please call the Business Office.

Every reasonable precaution is taken to avoid errors in and omissions from the telephone directory, but the Telephone Company does not guarantee listings therein and shall not be liable for damages arising out of errors in or omissions from the directory except as provided for in its filed regulations and tariffs.

Directories for other cities may be obtained by calling the Business Office.

personal directory

An attractively bound "personal directory" provides a handy place for keeping your personal list of frequently called local and out-of-town numbers. To get one free, just call the Business Office.

attachments to telephones

All equipment needed to provide telephone service is owned and furnished by the Telephone Company. In the interest of safety and good service, no attachment to the Telephone Company's lines or apparatus is permitted which may . . . (1) damage, require change in or alteration of, or involve direct electrical connection to the equipment or other facilities of the Telephone Company . . . (2) interfere with the proper functioning of such equipment or facilities, or impair the operation of the telephone system, or in any other manner injure the public in its use of the Telephone Company's services . . . (3) endanger the public or the Company's employees.

annoying, obscene and threatening calls

Malicious, threatening and obscene calls are prohibited. The making of such calls over telephone company lines may constitute cause for disconnecting service or for possible civil or criminal action by the person called. Those receiving calls of this type should hang up immediately and, if the calls persist, should contact the telephone Business Office.

rates and regulations

Regulations and rules governing the furnishing of services by the Telephone Company are on file in our Business Offices. A representative will be glad to assist you in obtaining information from them.

AMES CIVIC INFORMATION

HISTORY—The village of Ames came into existence in 1864. That same year the Cedar Rapids and Missouri Railroad was extended to the new Story County settlement. This village was named after Oakes Ames, Massachusetts Congressman and railroad promoter, who had financial interest in the C.R. and Mo. R.R.

The presence of state and federal institutions has been a major factor in the growth of Ames. March 18, 1869 marked the formal opening of the "State Agricultural College and Model Farm". Now Iowa State University of Science and Technology (the name adopted by the 1959 Iowa General Assembly), has an enrollment of 14,000 students.

GOVERNMENT—Ames operates under a Mayor-Council form of government with a City Manager. With this type of city government the City Council sets the policy and the City Manager administrates it. The Mayor is elected for a 2-year term. The Mayor presides at Council meetings, is the chief peace officer of the city and official city host. He appoints the Chief of Police, committees of the council and citizen members of various municipal boards and commissions.

PLANNING—The seven City Plan Commission members are appointed by the Mayor for five-year terms and serve without salary. They employ, with the approval of the City Council, a professional staff. The Commission directs planning for the orderly growth and development of the city by recommending zoning for new areas of the city, attempting to keep non-conforming use to a minimum and recommending zoning patterns that encourage suitable use of the land.

The powers of the Commission are advisory and its recommendations may or may not be adopted by the Council. Decisions of the Council may be appealed to the Zoning Adjustment Board.

WATER—From the original well with a pump and elevated wooden water tank, the Water Department has grown to a plant capable of producing 6,000,000 gallons of treated water a day. Equipment includes six gravel-packed wells, a new 1,000,000 gallon capacity water tower, a new well house and meter pit, a high service pumping station and a new clarifier basin. The University has its own water supply and plant.

MUNICIPAL LIGHT AND POWER PLANT—Ames has had its own municipal light and power plant since 1896. It has been expanded several times to meet the increasing demands of a growing city. The last major expansion occurred in 1948 when revenue bonds in the amount of $2,650,000 were issued. New generation capacity was added in 1958 and plans call for further additions in 1968.

MARY GREELEY HOSPITAL—A donation from Captain W. M. Greeley in memory of his wife, founded the Mary Greeley Memorial Hospital in 1916. The first addition was built in 1937; the second addition in 1961 brought bed capacity to 160.

AIRPORT—The Ames Municipal Airport is located in the south part of the city west of Highway 69. A $270,600 improvement program in 1963 included increasing the length of the main runway to 3,500 feet and its width to 100 feet which accomodates planes as large as four-engine DC-6's.

FINANCIAL—Ames is served by three banks. Bank deposits as of June 30, 1965 amounted to $34,662,039. There is one savings and loan association.

PUBLIC SCHOOLS—The school plant is comprised of seventeen buildings, with a present total new replacement value of $10,344,348.

Connected with the stadium is a high school gymnasium and a joint city-school recreation building housing a 75' x 75' swimming pool, completed in 1966. Pupil enrollment in January 1966 was 5,495.

IOWA STATE UNIVERSITY OF SCIENCE AND TECHNOLOGY—Colleges within the University are Agriculture, Engineering, Graduate, Home Economics, Sciences and Humanities and Veterinary Medicine.

A federal land grant institution, Iowa State has a three-fold function:

1. Resident instruction on both the undergraduate and graduate levels.
2. Extensive programs of research.
3. Extension service in agriculture, engineering and home economics.

The research facilities of the University include the Agriculture and Engineering Experiment Stations, the Institute for Atomic Research, the Industrial Science and Veterinary Medical Research Institutes and the Statistical Laboratory.

The United States Atomic Energy Commission has a major laboratory for basic research on campus, operated as an integral part of the Institute for Atomic Research.

University enrollment for the fall quarter of 1966 was 15,505; the University staff was 4,050.

University land in Ames and through the state totals 7,540 acres with 986 acres in the main campus and recreation areas.

IOWA STATE HIGHWAY COMMISSION—The Iowa State Highway Commission employs 3,400 engineers, administrative assistants and maintenance men in all of its departments. About 850 are located in Ames.

NATIONAL ANIMAL DISEASE LABORATORY—The principal work of the National Animal Disease Laboratory, a facility of the U. S. Department of Agriculture located in Ames, Iowa, is research on the principal diseases of livestock that occur in the United States. About 20 percent of the facilities, however, are used to provide laboratory diagnostic services for some of the Department's disease-control field programs and for the regulation and control of biological products made and sold in inter-state trade by private commercial companies. At present the staff consists of 125 professional and scientific workers and 320 nonprofessional employees, a total of 445 persons.

The laboratory was constructed at a cost of $16,000,000 and the annual operating budget is in excess of $5,000,000.

Yellow Pages

When you need

A PRODUCT OR SERVICE

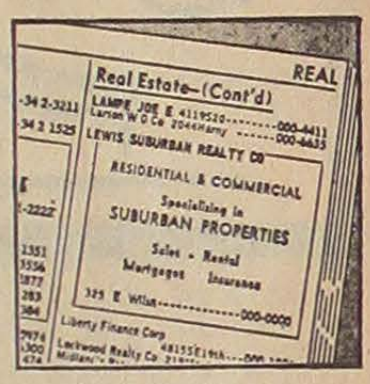

If it's furniture just turn to "Furniture" in the "F" section. Look over the list of furniture dealers and then pick the dealer whose message, location, brand names, or other features appeal to you.

Whether you need a plumber or a florist, a TV repairman, a moving van, or any other product or service look under the appropriate heading . . . and you'll find them fast in the Yellow Pages.

When you want to

FIND A FIRM WHOSE FULL NAME OR ADDRESS YOU'VE FORGOTTEN

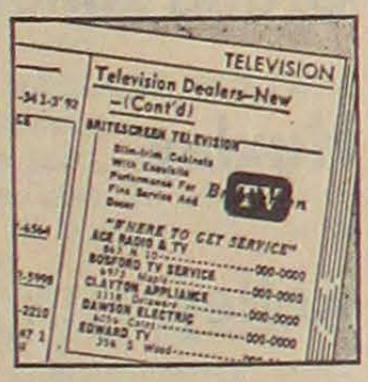

If, for example, you have forgotten the name of a real estate company you want to call but remember the address, check the listings under "Real Estate" until you come to the address and you'll recognize your firm.

Perhaps you can remember only part of the name . . . that "Suburban" is in the firm's name. Look through "Real Estate" listings and you'll, no doubt, quickly recognize the full name of the company.

When you want to

FIND A "BRAND NAME" PRODUCT OR SERVICE

If you want to know who handles "Britescreen Television Sets" just turn to "Television Dealers" in the Yellow Pages and look for "Britescreen Television" in alphabetical order, with Britescreen dealers listed under it.

When you want to

FIND FIRMS OFFERING SPECIAL SERVICES

Need a tow truck in the middle of the night? Or a plumber or furnace repairman? You can find them fast in the Yellow Pages.

You can find out which restaurants are open on Sunday, where to get an ambulance or chartered airplane, rent a post hole digger or a wheel chair. A look in the Yellow Pages can answer a lot of questions, save a lot of time and trouble.

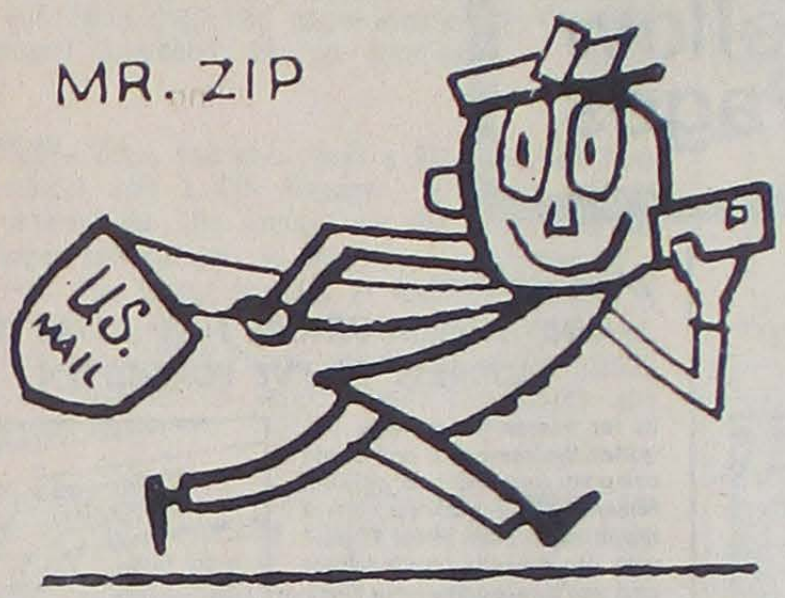

EVEN WHEN YOU KNOW THE NAME YELLOW PAGES CAN HELP

Let's say, for example, that you want to call the National Hardware Store. You can find "National" under "Hardware" in the Yellow Pages faster than going through the "N" pages in the regular white alphabetical pages.

LET THE YELLOW PAGES INDEX HELP YOU FIND WHAT YOU WANT

An Index of headings in the Yellow Pages begins on the next page. If you are in doubt about the correct heading where you will find the company to provide the product or service you want, turn to the INDEX. It includes cross references to help you find most everything you want, quickly.

TO CALL A PARTY ON YOUR LINE

Two-party customers dial the telephone number listed in the directory. You will hear a busy signal. Then hang up and your bell and the bell on the called telephone will ring. When the ringing stops the telephone has been answered. Then remove receiver and start talking. If no answer is received, lift your receiver to stop the ringing.

Eight-party customers dial the telephone number listed in the directory. A high whistling tone will indicate the number you have dialed is on your line. Then dial the single figure following the "Pty code" shown on the number plate on your telephone. When you hear the busy signal hang up, and your bell and the bell on the called telephone will ring. When the telephone called has been answered your bell will stop ringing. Then remove the receiver and start talking. If no answer is received, lift the receiver and replace it to stop your bell from ringing.

WHEN STORMS BLOW,
EMERGENCIES HIT,
OR

DISASTER STRIKES

...telephone men and women are on the job, backed by emergency plans and equipment, doing what needs to be done to help keep your telephone services ready to serve you.

AREA CODES and TELEPHONE NUMBERS help speed all long distance calls

Time-saving hint for long distance calls placed through the Operator: the same Area Codes needed for Direct Distance Dialing also help speed calls your Operator handles for you.

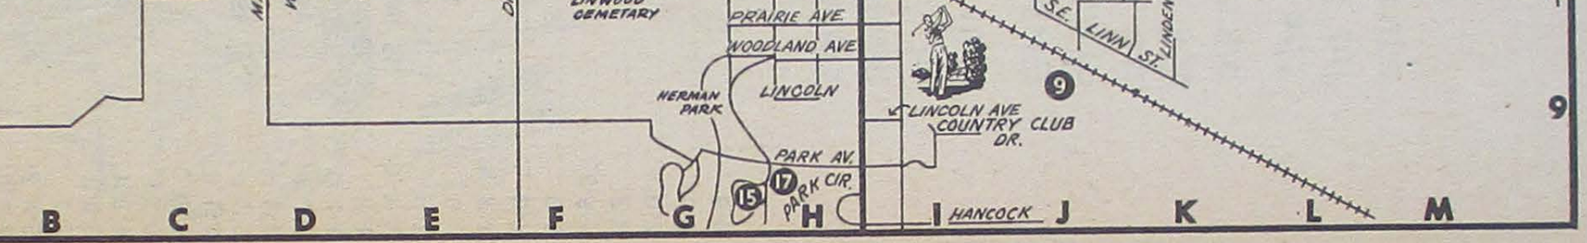

Giving her the Area Code along with the number of the telephone you are calling means faster service . . . no waiting while the Operator looks up the Code or calls the distant city for the telephone number.

The first White Pages of this directory have helpful long distance calling information, a list of cities and their Area Code Numbers.

TO CALL A PARTY ON YOUR LINE

Dial 8—the last digit of your number—the last digit of the called number. Replace receiver. Your telephone and the called telephone will ring at short intervals. When your telephone stops ringing, your party has answered. Then remove receiver and begin conversation. If no answer, lift receiver and replace it to stop the ringing.
